APPLICATION

AtlasWeb AS

Feature / Benefit

1. **Newly developed surface rubber compound** offers excellent dot reproduction and solid coverage.
2. **Tough carcass construction** offers improved longevity and excellent smash resistance with reduced gauge loss.
3. **Unique Kinyo ThermoSphere compressible layer technology** stays stable & consistent. Offers longer blanket life on press through improved shock absorption, rapid recovery and better smash resistance. ThermoSphere offers ecological improvements in our manufacturing process.

ThermoSphere

Technical Data

● Surface	
Rubber Compound	For conventional ink type
Finish	Ground
Color	Blue
● Construction	
Compressible Layer	Closed cell
Nominal Thickness/Ply	1.95mm/3Ply 1.68mm/3Ply
● Application	
	Cold-set web offset printing Heat-set web offset printing
● Physical Property of 1.95mm Type	
Thickness	1.93 - 1.98mm
Tensile Strength at Break	85N/mm<
Elongation at Break	Approx. 5%
Elongation at 500N/50mm	1.2%>
Roughness <Ra>	Approx. 1.2μm
Compressibility	Medium
Paper Feed	Positive

ROUGH ☐ ☒ ☐ SMOOTH

HARD ☐ ☒ ☐ SOFT
